Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I AM	I'M TRYING TO	BUT	BECAUSE	WHICH MAKES ME FEEL
A student or learner trying to master self-study subjects.	Explain complex academic concepts aloud to test my knowledge.	I have no real-time evaluator to verify if my phrasing matches definitions.	Traditional tools only grade multiple-choice or written exams.	Anxious and uncertain about my actual depth of understanding.
